Japan sales total	11,893	-2.4%	First decrease in 3 months
Export total ^{*3}	50,114	+26.7%	2nd consecutive month of increase

< Production >

- Domestic production increased due to a significant increase in Forester production which offset an impact of changes in plant operation schedules continuing since November 2018.
- Overseas production decreased as production of the Legacy and Outback declined before the launch of their fully-redesigned models.

< Sales in Japan >

- Passenger vehicle sales decreased as sales of the Levorg declined before the launch of its new model, offsetting strong sales of the Forester and Subaru XV.
- Mini vehicle sales decreased as sales of the Pleo and other models declined.

< Exports >

- Exports from Japan increased as shipments of the Crosstrek* and Forester to the U.S. increased. (* Subaru XV in markets outside North America)

[January – June 2019]

< Production >

- Domestic production decreased because of production halt from January 16 through January 26 due to a defect in the Electric Power Steering unit as well as changes in plant operation schedules.
- Overseas production increased boosted by production of Ascent which started in May 2018.

< Sales in Japan >

- Passenger vehicle sales decreased as sales of the Impreza and Levorg declined offsetting strong sales of the fully-redesigned Forester.
- Mini vehicle sales decreased as sales of the Pleo and other models declined.

< Exports >

- Exports from Japan decreased due to a decrease in domestic production.
