

Subaru Announces Lineup for Tokyo Auto Salon 2022
- STI to reveal the STI E-RA CONCEPT as a study model toward a carbon neutral era -

Tokyo, December 23, 2021 – Subaru Corporation and its motorsport subsidiary Subaru Tecnica International (STI)*¹ will exhibit at Tokyo Auto Salon 2022 to be held January 14 to 16, 2022 at Makuhari Messe in Chiba, Japan.

STI E-RA CONCEPT

WRX S4 STI performance CONCEPT

At the Subaru/STI booth, STI will reveal the STI E-RA CONCEPT, a study model for future motorsport vehicles toward a carbon neutral era.

Also on display will be STI performance models, including the WRX S4 STI performance concept, LEVORG STI performance concept, and SUBARU BRZ STI performance, all equipped with STI performance parts to make these models sportier and deliver greater enjoyment.

The booth will also showcase the actual SUBARU BRZ GT300 2021 model that raced in the Super GT 2021 series and brought the Subaru team its first-ever series championship in 2021.*²

On the Subaru official website, a special site for the Tokyo Auto Salon has been set up to deliver information on the Subaru/STI booth: <https://www.subaru.jp/tas/> (in Japanese only)

Exhibit vehicles list:

STI E-RA CONCEPT	Show car
WRX S4 STI performance CONCEPT

SUBARU BRZ GT300 2021	Racecar

■ **STI E-RA CONCEPT (world premiere)**

STI is showcasing the STI E-RA CONCEPT developed in a new project launched with an aim of gaining

experience and practice in new technologies in the world of motorsport which is making its way toward a carbon neutral era.

■ **WRX S4 STI performance CONCEPT**

Based on the WRX S4 STI SPORT R grade, this vehicle is customized with STI performance parts such as a cherry red under spoiler. It is also equipped with a carbon rear spoiler and performance muffler to bring out the ultimate sense of unity.

■ **LEVORG STI performance CONCEPT**

Based on the LEVORG STI SPORT R grade, this vehicle is customized with STI performance parts such as a cherry red under spoiler as well as special items enhancing the utility of a wagon. Also equipped with a performance muffler, this concept model delivers the optimal combination of utility and performance.

■ **SUBARU BRZ STI performance**

Based on the SUBARU BRZ S grade, this vehicle is equipped with STI performance parts. It is a customized model featuring cherry red decorations to express driving enjoyment.

■ **SUBARU BRZ GT300 2021**

The actual race car that won the 2021 series championship in the GT300 class
