For 2024, the IIHS modified the requirements for its *TOP SAFETY PICK* and *TOP SAFETY PICK+* awards. To qualify for either award, vehicles need good ratings in the small overlap front and updated side tests, an acceptable or good rating in the pedestrian front crash prevention evaluation and acceptable- or good-rated headlights across all trim levels. Also, a good rating in the original moderate overlap front test is enough to qualify for *TOP SAFETY PICK*, but a good or acceptable rating in the updated test is needed for *TOP SAFETY PICK+*.

Since 2013, Subaru has received a cumulative total of 72 *TOP SAFETY PICK+* awards, which is more than any other brand. <sup>\*1\*2\*3</sup>
