

**Update on the Temporary Suspension of Production at
Subaru's Manufacturing Plant in the U.S. in response to COVID-19 Spread
(Information as of April 15, 2020, Japan time)**

Regarding the temporary suspension of its manufacturing plant in the U.S. announced on April 1, 2020, Subaru Corporation will change the previously announced schedule and extend the shutdown of Subaru of Indiana Automotive, Inc. (SIA) in response to decreased vehicle demand in North America and interruptions in our supply chain.

SIA will remain closed through May 8, with plans to resume production on May 11.
(Previous schedule: Shutdown through April 17, with plans to reopen on April 20)

< Updated summary >

(Updated information is underlined.)

[Japan] Gunma Manufacturing Plant

Shutdown schedule for the Gunma Manufacturing Plant is unchanged from the previous announcement on April 6, 2020.
