Tokyo, May 8, 2015 - Fuji Heavy Industries Ltd. (FHI), the manufacturer of Subaru automobiles, today announced its consolidated financial results for the fiscal year ended March 31, 2015.

**< FYE2015 Results: Consolidated Net Sales >**
Subaru’s consolidated global unit sales rose 10.4% to 911,000 units. While passenger car sales posted an increase led by launches of new models such as the Levorg wagon and the new generation WRX, unit sales in Japan fell 10.4% to 163,000 units due to a decrease in mini vehicle sales. Overseas unit sales grew 16.2% to 748,000 units, driven by continued high demand for the Forester as well as strong sales of new generation models including the Legacy, Outback and WRX. FHI’s consolidated net sales rose 19.5% to 2,877.9 billion yen due to unit sales growth, foreign exchange gains and other factors.
